Defensive Edge Bladed Weapon Seminar

This one-day intensive seminar is designed to introduce the participant to fundamental concepts, principles, and non-lethal tactical skills against an attacker. Seminar description:

- Empty hand techniques against bladed weapons,
- Weapon disarm and restrain/control techniques,
- Knife drills to develop left and right hand coordination, increase visual response time, and develop sensitivity to counter various angles of attack.

Experience first-hand a seminar that will provide you the opportunity to understand the dynamics of a blade attack.... when the choice to RUN... is simply not an option.

Proven concepts and principles that can be implemented immediately to enhance your response time and tactical skills. Regardless of a person's size, weight, and strength, or whether they are armed or unarmed the methods employed provide you with an artillery of skill sets to accomplish the task at hand.

This seminar is geared towards individuals that have completed basic knife defensive tactics training at one time or another.
